

## Aplicație

### Analiza alocării cheltuielilor bugetare pentru educație, sănătate și protecție socială

Se dorește realizarea unei evaluări a cheltuielilor bugetare care au fost alocate în România în perioada 1995-2014 pentru educație, sănătate și protecție socială. Analiza va cuprinde 3 părți:

În **prima** parte, se vor identifica principalele obiective ale politicii în domeniul educației, sănătății și protecției sociale, așa cum rezultă din strategiile naționale formulate în acest sens.

În **a doua** parte, se va face o analiză comparativă a modului de alocare a cheltuielilor bugetare pentru sănătate, educație și protecție socială în România și în Uniunea Europeană în perioada 2006-2014. Se vor urmări în principal alocările la nivelul UE28, precum și cele din Germania, Spania, Franța, Italia, Polonia și Marea Britanie. Analiza se va concentra pe stabilirea poziției României sub aspectul nivelului cheltuielilor bugetare și a variațiilor acestora în cadrul Uniunii Europene. Se va urmări, de asemenea, nivelul alocărilor comparativ cu perioada premergătoare crizei economice.

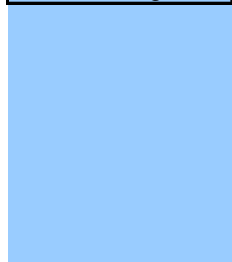

În **a treia** parte, analiza se va axa pe alocarea cheltuielilor bugetare pentru educație, sănătate și protecție socială în România în perioada 1995-2014. Se vor utiliza statisticile descriptive pentru 3, 10 și respectiv 20 de ani pentru a se analiza tendința alocărilor și evoluțiile înregistrate. Pentru a verifica eficiența acestor alocări, se vor analiza coeficienții de corelație care reflecta legătura dintre cheltuielile bugetare pentru educație, sănătate și protecție socială și PIB/capita, rata reală de creștere a PIB și HDI.

În urma analizei efectuate se vor formula recomandări cu privire la modul de îmbunătățire a alocărilor de la bugetul public pentru cele 3 domenii.
